## SUMMARY

Information Technology undergraduate with hands-on experience building full-stack and Java applications (Spring Boot, React, MySQL) and a strong grounding in Data Structures & Algorithms (DSA). Seeking software development / full-stack internship opportunities to apply and grow these skills in production settings.

## EDUCATION

### Government College of Engineering, Amravati

Pursuing B.E. in Information Technology | CGPA: 9.15

Amravati, MH

Aug 2025 – Present

### Dr. Panjabrao Deshmukh Polytechnic, Amravati

Diploma in Computer Engineering | Percentage: 90.57%

Amravati, MH

Aug 2022 – May 2025

## ACHIEVEMENTS

- Winner, Ecothon 5.0 — environment-themed hackathon.
- Participant in multiple additional hackathons (certificates available on request).

## PROJECTS

### Desserts to Doors – Sweets Delivery Application | Android Studio, Java, PHP, MySQL

Final Year Project

- Built an Android application for browsing, ordering, and cart management for an online desserts and sweets storefront.
- Implemented core Android components — Activities, Intents, and RecyclerView — to drive smooth navigation and efficient list rendering.
- Designed responsive XML-based UI layouts to improve usability across screens.
- Built a PHP + MySQL backend for user authentication and persistent data storage/retrieval.

### Medical Store Management System | Java, NetBeans, MySQL

1 Week

- Developed a Java desktop application to manage medical store inventory, sales, and transaction history.
- Designed a relational MySQL schema to store product details, customer sales records, and transaction logs.
- Added real-time stock management features to reduce manual inventory-tracking errors.
- Published the project on GitHub with setup instructions and documentation for reuse.

### Real-Time Chat Application | Java, Socket Programming

2 Days

- Built a real-time one-on-one chat application using Java socket programming to demonstrate client-server communication.
- Designed a simple, accessible UI focused on core networking and messaging functionality.
- Documented setup and usage on GitHub for other beginner learners.

## TECHNICAL SKILLS

**Languages:** Java, C/C++, Python, SQL

**Web & Frameworks:** Spring Boot, React, Node.js (MERN Stack)

**Databases:** MySQL

**Core CS:** Data Structures & Algorithms (DSA)

**Tools & Platforms:** Git/GitHub, VS Code, IntelliJ, Android Studio, NetBeans, Eclipse, Visual Studio

## COURSES & WORKSHOPS

- 2-Day Machine Learning Workshop — IIT Bombay (Dec 2025)
- Learning C & C++ Course — Compilers Technologies, Rathinagar, Amravati
- Java & DSA Using C Course — Compilers Technologies, Rathinagar, Amravati
